Gary:

One building was removed last year by Stone Construction. It was the small "drum building". Attached is the picture of that portion of the Site during the building removal in September. The second photo was taken during the soil investigation in January; the metal building in the background is the big warehouse.

Thanks
 Brenda

Brenda:

I recently talked with (b) (6) and she indicated that it appeared that the buildings may be coming down. If you get a chance, could you send me some pictures of what the site currently looks like.

Thanks
